- 10:50am: activity #2 begins
- 11:50am: lunch time
- 12:20pm: bus pick up

Classroom Visits

Let us bring the Art with Heart fun to YOU!

Pick **TWO** activities from this package (one from Section A and one from section B) and spend the first half of the school day creating art magic in your own classroom!

\$300

Plus \$3/student
(supply fee)

Add an additional classroom for the afternoon for \$200 (+\$3/student supply fee)!

Classroom Visits

Interested in a whole day of AWH fun?

Four classes + four artsy activities =

ART MAGIC!

Let your students immerse themselves in art as our instructors lead them through four different activities covering visual arts, music, drama, and dance! Classes will rotate through activities for the day and have a blast learning how to express themselves through a variety of creative outlets!

\$1800
\$15/student
(based on 120 participants)
supplies included

Activities

Colour Mixing Paintings

Students will learn all about colour theory and then apply their skills by painting a gradient background on paint paper. Once the backgrounds are finished, we will turn our awesome backgrounds into backdrops for some unique landscape or floral pieces.

Slime Experiment

Students will enjoy a combination of science and art fun with this gooey workshop where they make their own slime using typical household ingredients. Each step of the way we will hypothesize what we think each ingredient will bring to our slime recipe!

Watercolour Tissue Paper Mixed Media

Students will create their own colourful, creative scenes using watercolour tissue paper and a wide variety of other fun materials like glitter paper, gems and stickers. This activity is all about self expression and creativity!

Activities

Drama Kidz Workshop

Students will get the opportunity to work with a local theatre professional to explore the wonderful world of THEATRE! A variety of drama games and activities will keep our brains and bodies busy, as we work on key dramatic skills such as body language, movement and improvisation.

Musical Exploration

Enter the world of music and rhythm! Bucket drumming, boomwhackers, ukuleles and more; there's so much to explore! Our instructor will lead students through musical activities; teaching everyone important musical terms, how to follow a beat, and help them hone their improvisation and conducting skills!
